MESSAGE FROM THE CHIEF

Welcome to the annual report for the Defence Force Superannuation Scheme ("DFSS" or the Scheme) for the year ended 31 March 2016. New Zealand Defence Force (NZDF) is proud to be looking after our own.

In 2015, we've made significant improvements to the Scheme, so that you can have more than before. The Scheme now has investment choice and offers seven investment options. Depending on your personal circumstances and risk profile you can choose to invest in one or more of the available investment options from cash to shares.

Having more choices can however be confusing and to support our members, we've also ensured that you can access leading edge calculators and tools developed specifically for the Scheme. We also wanted to support and help you make good decisions and appointed Milestone Direct which provides financial advice.

Other changes included the ability for our members to contribute to the Scheme after leaving NZDF as we

recognise that it was important to our members. Alternatively you can now join one or two savings schemes launched by NZDF in October last year – the New Zealand Defence Force KiwiSaver Scheme and the New Zealand Defence Force FlexiSaver Scheme.

As we developed and launched new savings schemes specifically for members of NZDF and wider Defence Community, we closed DFSS to new members.

I am proud to see members of NZDF save for their future and retirement. I want to thank you for being a part of our savings programme.

Together we are stronger.

SECTION FOUR

INVESTMENTS INFORMATION

Investment choice

Until 1 October 2016, the DFSS only offered a balanced portfolio. While this suited most members, it was not necessarily right for everyone. For example, it may not have catered for members willing to take greater investment risks, or members wanting to take a more cautious approach with respect to their savings.

A choice of seven investment options

Each investment option has different expected risks and returns. There are two single-sector options and five diversified options. Each diversified option has a different risk/return profile and mix of assets, ranging from the lower risk/lower potential return Conservative option to the higher risk/higher potential return High Growth option.

The investment option (or combination of options) you choose can have a significant impact on your retirement savings.

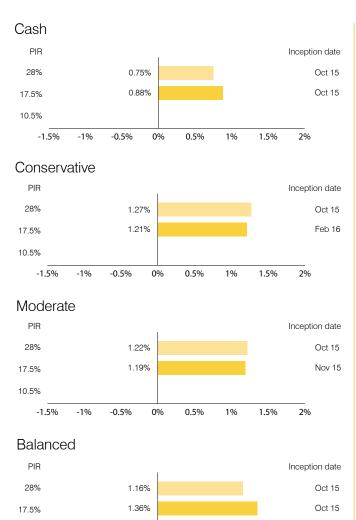

Choosing an investment option (or options)

You may have already selected one of the new investment options, but if you haven't please note that until you select an investment option (or combination of options), your savings will continue to be invested in the Balanced option. More information about the investment options can be found in the DFSS member booklet or by signing in to **www.nzdf.superfacts.co.nz**.

Your account balances are now updated daily

The value of your savings is now calculated daily rather than monthly. This means you can see the up-to-date value of your savings at any time by signing in to **www.nzdf.superfacts.co.nz**.

Returns as at 31 March 2016 (after tax and fees)

The investment management transitioned to Mercer (N.Z.) Limited part way through the year, so the returns below are only shown from when the transition took place. Please bear this in mind if you are attempting to compare the returns shown below to returns generated in other schemes for longer or different periods.

The returns shown below are for each tax rate category of each investment option from when investment funds were first recieved to 31 March 2016. The returns presented for some tax rates are therefore calculated from October 2015 for some tax rates and from subsequent months for others.

www.nzdf.superfacts.co.nz.

The investment returns are shown after fund fees (excluding membership fees) and after tax at the Prescribed Investor Rate (PIR) indicated. It's important to note that the investment returns shown don't tell you how the investment options will perform in the future and that past performance is not a reliable indicator of future performance.

Your individual returns within an investment portfolio will depend on timing of contribution payments and actual fees charged. The returns shown are therefore indicative of investment results but may differ from the actual after fees and tax returns achieved by you.

Interest rates issued for the period to 30 September 2015

Prior to the Scheme's investment management being transferred to Mercer (N.Z.) Limited, monthly crediting rates were declared by the Trustee and allocated to members' accounts throughout the year. The rates were based on the DFSS investment earnings and have had tax deducted at the applicable PIR of 10.5%, 17.5% or 28%.

Interim interest was applied to benefits paid to members who withdrew from the DFSS during the period. The interim rate was advised by the Trustee and covered the period from the last declared monthly crediting rate to the date of payment.

The following cumulative crediting rates were allocated to members who withdrew from the DFSS between 1 April 2015 and 30 September 2015:

	10.5%	% PIR	17.5%	% PIR	28%	PIR

This report is made solely to the Scheme's members, as a body. Our work has been undertaken so that we might state those matters we are required to state to them in a report from the auditor and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Scheme's members, as a body, for this report, or for the opinions we have formed. In addition, we take no responsibility for, nor do we report on, any part of the annual report not specifically mentioned in our report.

TRUSTEE'S RESPONSIBILITY FOR THE SUMMARY FINANCIAL STATEMENTS

The Trustee is responsible for the preparation and presentation of the summary financial statements in accordance with FRS-43: Summary Financial Statements (FRS 43).

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with International Standard on Auditing (New Zealand) 810: Engagements to Report on Summary Financial Statements.

We are independent of the Funds and the Scheme. Other than in our capacity as auditors and providers of other related assurance services we have no relationship with, or interests in, the Funds and the Scheme.

OPINION

In our opinion, the summary financial statements on pages 9 to 12 derived from the audited financial statements of the Funds and the Scheme for the year ended 31 March 2016 are consistent, in all material respects, with those audited financial statements, in accordance with FRS 43.

NZDF LOOKING AFTER YOUR FINANCIAL WELLBEING

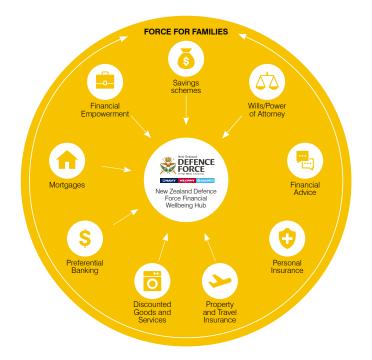

In October 2015, New Zealand Defence Force launched two new savings schemes to offer more savings options to you and your family – the New Zealand Defence Force KiwiSaver Scheme and New Zealand Defence Force FlexiSaver Scheme.

Both schemes are managed by Mercer, who was selected through a public tender process. Mercer administers the schemes, manages investments and looks after the scheme's online portal **www.nzdf.superfacts.co.nz** where you can check your personal information.
